SnoBASH

Mark your calendars February 5,6 & 7

Watch the website...there is 12-15 inches of snow at Bear Valley Cross Country. With El Nino predictions there could be a large amount of snow coming in January and February. If we get too much snow, they may not be able to put in a trail for us. Right now we aren't worried about no snow to sled on. As we get closer we will send out updates.

Over the years we have fewer drops for dogs at the sledding location. We have limited drops that are owned by BASH which means we won't have places as in the past for EVERYONE to drop their dog. You will need to purchase some from Nordkyn.com. We will have limited harnesses and Alaskan collars available to purchase.

Friday—

2 to 5 pm set up drops

10:00 to 11:00 Sourdough Race

11:00 to 12:00 rides if time allows

12:00 to 1:30 lunch

1:30 to 3:30 finish fun runs and clean up to go home.

Saturday

7:30- 9:30 breakfast

10:00 to 12:00 rides

12:00 to 1:30 lunch

1:30 to 3:30 rides

5:00 meeting

6:00 dinner

Sunday

7:30- 9:30 breakfast

We will be renting the Tamarrack Pines as a group again this year. More info will be in next month's newsletter. At the Pines you can not have dogs in the rooms. Rooms range from \$200 to \$500 for the two nights. There are 5 rooms. Rooms will be available first to "Core Members" that work much of the event. If not all rooms are reserve all rooms by January 5th we open rooms to others or release them back to the Lodge. The parking lot is small so you must be able to drop your dogs off your vehicle. There is room for tie-outs where we sled from but not in the parking lot.

Those staying at the lodge will sign up for bringing different food items for the group

Right next door to the pines is -
Tamarack Lodge at Bear Valley
18278 Highway 4, Bear Valley
Tamarack, CA, 95223, United States

BASH has stayed here in the past and recently they again are renting to individuals. NO PETS in rooms. They have single rooms and out buildings for families.

For those that want dogs in their room or can't drop off the car, there are places to stay in Arnold and Angels camp. Which are 30-45 minutes drives from where we are.

5 top Holiday Dangers for your dogs....

1. Holiday Tinsel and Ornaments

Tinsel, while not toxic, is very attractive to pets, particularly cats. The shiny, dangling decoration reflects light and can move in the slightest draft — appearing to come alive to watchful critters.

2. Holiday Lighting and Candles

Twinkling, shiny and dangling holiday lights — such as the icicle, netting, garland, curtain, rope and candle varietal — may be another source of danger to your curious pets.

3. Gift Wrap Ribbon

You may be tempted to fashion your pet with a decorative ribbon “collar” but beware that this could become a choking hazard.

4. Food Hazards

Festive events often mean edible treats — and lots of them. Unfortunately, some of the most popular holiday goodies, such as chocolate, bones and nuts, can be extremely toxic or fatal to pets.

5. Toxic Holiday Plants

They may be pretty, but some holiday plants are poisonous—even deadly. As little as a single leaf from any lily variety is lethal to cats. Others to avoid: Pine Needles, Mistletoe, Holly, Poinsettia For more on toxic plants, visit our [toxic plant guide](#).

Umunhum Conservancy

Many have run dogs or just visited the mountain and know what a great place it is. There is a group called the Umunhum Conservancy (a 501 c 3, non profit) that is raising money to pay to restore the block building at the top. It is on Mid Peninsula Open Space property and they would prefer it gone. It is one of the few things of the "COLD WAR" that is left in our area and it was there to protect us. Here is the website.

Rescue December 2015

Maddie's Fund

Randee McQueen 408-371-1841 bashrr@com-ctl.com

Ricky Neutered Male, 4 years old, Housetrained, Crate Trained, Lead Trained, rides well in car, good with Children, good with Large Dogs, has Rabies vaccinations, has DHLPP vaccinations, on Heartworm preventative, microchipped. Is learning sit and down. Beautiful face, expressive blue eyes, a classic black and white coat with some soft freckling on his snout, he is one very handsome boy with a gentle spirit. Long legged and slim, quick and agile, he's putting on a little weight, but needs a few more pounds. Ricky has the potential to be a wonderful Siberian companion. Sensitive, sweet, responsive and attentive to his handler, he seems to be most comfortable and trusting with women, soft spoken men. Loves attention, ear tousling, patting, training with treats, but quick to dart away if he detects conflict or correction coming. Gentle mouth, quiet. Some hesitation coming through doors or clipping up with to a leash. Once on the leash, he is light and easier handle than larger sibs. Ricky was an owner surrender to the San Jose Shelter. They had too many dogs at their home. We know he lived with 4 other Siberians. Ricky is not a digger. He is young, very curious, quick to slip out to explore the world, and can be mischievous, but he has done well in our house and small fenced yard with long daily walks. A settled environment, steady companionship, interactive time with people or dogs, and a regular diet will be good for him.

We only have the one at the current time in rescue and one that we may be pulling.

Think about our rescue and think about trying to foster that one siberian a year.
