# Husky Hikes in June

The First Hike will be Sunday June 3rd at Gavin/ Dry Creek Park in Union City. Please arrive by 8 am for beverages and snacks. We will be starting the hike by 8:30 sharp. We will be meeting at the May Road park entrance near the Dry Creek Apartment complex. This is a small parking lot so the earlier you arrive the better. It may fill up by 8 am. We will walk the High Ridge Loop Trail to Jordan Pond. There is a picnic area there where we can take a break, water the dogs and have a snack. We will then return on the Dry Creek Trail. Please look up the Park on [EBparks.org](http://EBparks.org) for a trail map. And also to look at the other trails if you wish to continue hiking on your own after we return to the parking lot. There are a lot of beautiful trails in this park.

This second hike is scheduled for June 24th meet up at 8 am leaving at 8:30. We will meet at Shady Oakes Park in South San Jose, street parking along the park. We will walk the Coyote Creek Trail to Hellyer Park. About 1 and 1/2 miles. Once there we can make a loop around Cottonwood lake and picnic area, taking a break before we head back. There is a great playground near the lake and a dog park further into the park. Coyote Creek is a paved trail so this is a good hike for anyone with small children still in strollers. I am planning to bring a dog powered little red wagon. Please look up a map of the park at [sccgov.org](http://sccgov.org). We will then return to Shady Oakes Parks. Although the trail is shaded it may be hot by the time we head back, so please bring water for your dogs and yourself.

Is anyone interested in hiking beautiful Uvas Canyon Park? We will actually have to reserve parking places. I would love to go there. So please email me if you interested. [Pattylacava@yahoo.com](mailto:Pattylacava@yahoo.com). Look up this park at [www.parkhere.org](http://www.parkhere.org). Uvas Canyon also has camping. Perhaps a camping trip in the future? There are quite a few parks with campgrounds on this website. And also in the East Bay parks. Let's open a dialogue about a camping trip.

NEED a BASH meeting in July....

Anyone interested in HOSTING the meeting.....

**The May 6th Urban Mushing** meet-up was lots of fun. Most of the regulars were there. We had a couple of new people invited by Miles and Larry. And a friend of mine who does not even own a dog but want to try out scootering. Now we have to wait out the hot weather until next fall. In the mean time as you are out there hiking with your dog, please take note of any location that we could scooter with our dogs so I can start planing for fall.

Our May 20th Hike was not as well attended as other hikes. I am trying out different areas of the bay to find out where people like to hike. I highly recommend this trail as the views are stunning. There is also a spacious fenced in dog park where it is safe to allow your dogs to run off leash. Mike (who's last name I did not get) meet up with us with his two dogs and his Digglers. The trail can be scootered but show up early as it is narrow and does become crowded as the day progresses. Gail, Yanyan and I planned out the next three hikes while we were there. So look for the next Peninsula hike at Stanford Campus in June.

At just over a year old Shamu is young and active. He would do well with an active home that likes to spend time with their dog(s). He has a great personality. He rides well in the car and walks fairly well on leash. He easily learned sit and down and is very sweet and wants to please. We took him on a club hike and he was great. He was great with all the little kids even though they wanted to sit on him. He is a dog that needs attention and exercise and a secure yard with high fencing for when he is outside. He is very happy to hang out in the house with the family and enjoys being pet and attention. He is on the larger side for a Siberian (he may have some Malamute in him) and will need a home with people who understand Northern breeds and are willing to give him the time, attention and exercise he needs. He does have a prey drive so he will NOT be placed in a home with cats, small dogs or other small animals. Larger dogs are fine.

Blue is a 3 year old blue-eyed beauty.

Blue likes to play with big dogs, and lived with a young child. He knows sit, down, stay, and will shake paws with you. He is house broken and spent 3/4 of his time inside. Blue is easy to handle and walks well on a leash. Blue does have one issue that needs work. We believe that he was teased through a fence or gate, thus developing barrier aggression. Blue should not be left in a yard by himself while he is being retrained. I will be speaking to a trainer to develop a program to retrain him. He also may do better in an apartment without a yard. Blue has so many positive attributes that the time working with him around fences will be time well spent. Please only experienced dog owners or new dog owner willing to comply with a trainer's instructions.

Annie- Born June 3rd, 2017. Annie is a gray and white female with the most adorable personality. She was one of a litter of 12 puppies and has since grown up in a multiple dog environment. She is best suited for a home that already has dogs, especially those with high energy levels of hours of play. She has an affectionate personality and loves to talk about her thoughts. With her high energy and smarts comes a high need for attention.

Saturn is beautiful to see, like me! I am a loving, gentle, young boy looking for a forever home. I am good with other dogs my size. I love being with people. Though at first hesitant, I warm up quickly to the easy smile and kind heart.

I am house trained and leash trained. I am new to foster and am learning every day and they think I'm between 18 m and 2 years old. I look forward to meeting you, my forever home!
